To: Whom it concerns

Att:

Insurance policy regarding Swedish skydiving license holders.

All skydivers holding a valid Swedish Parachute Association license card have a worldwide insurance coverage which includes accident and liability insurance.

The License is valid in all FAI countries and only together with an ID-card or comparable. Above stated is also printed on the back of the license card.

An issued license has this layout: (see picture below)

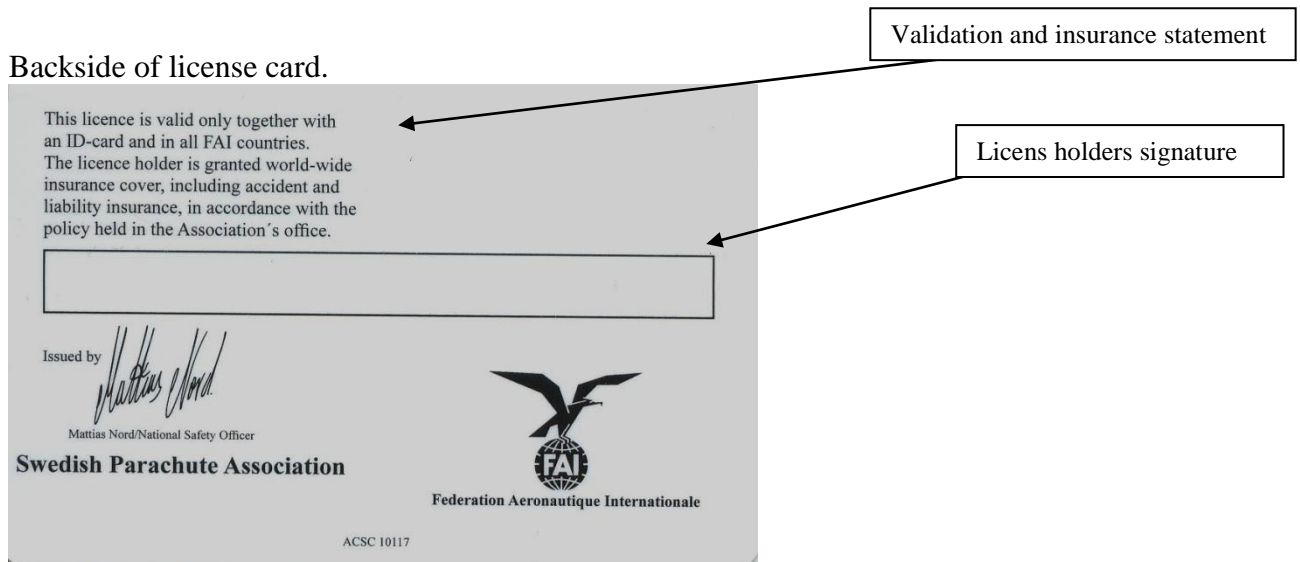

Instructor ratings:

HM = Jumpmaster
HL = Jump Leader
KL = Course Leader
AFF = AFF instructor
T = Tandem instructor
TU = Tandem Demo rating (at least 500 logged tandems)

License Ratings:

E = Student rating. Only valid accompanied with a Swedish instructor.
A = First Parachute license rating
B = At least 100 logged jumps after finished jump course
C = At least 1 year as a skydiver, 200 logged jumps after jump course
D = At least 2 years as a skydiver, 400 logged jumps after jump course

Backside of license card.

The Swedish Parachute Association does not require a license holder to be a Swedish citizen. However a valid license card is proof of membership, license, and insurance cover. The license is valid until the 31st of December the year the license is issued for.

Please note that the license including insurance, only covers parachuting from accordingly approved airplanes and no fixed objects. The insurance cover starts from point of exiting the aircraft until landing.

The amount of which the insurance cover are, according to the insurance letter:

| | |
|---|-------------|
| Injuries resulting in disability: < 50% | 250 000 SEK |
| Injuries resulting in disability: > 50% | 500 000 SEK |

The liability extends to 5 000 000 SEK.

Regards

Petter Alfsson-Thoor
National safety officer/ Swedish Parachute Association
